CAREER OBJECTIVE

Aspiring AI/ML Engineer and Data Scientist with hands-on experience building machine learning and deep learning models. Seeking an internship or entry-level role to apply skills in ML, computer vision, and automation in a dynamic AI-driven environment. **Published researcher** with a **Government of India Copyright Registration** for an original NLP dataset. Seeking an internship or entry-level role to contribute to AI-driven products and research.

EDUCATION

Manav Rachna University, Faridabad 2023 – 2027
B.Tech *in* ***Computer Science*** *— Specialization in* ***Artificial Intelligence & Machine Learning*** | ***CGPA: 7.29***(Till date)

S.S. Public School, Gopalganj 2014– 2023
Class 12 *— 76%* | ***Class 10*** *— 72%*

INTERNSHIP

Machine Learning Intern — Prodigy InfoTech July 2025 – August 2025

- Developed ML models using Regression, K-Means, and SVM on real-world datasets.
- Built CNN models for image classification with data augmentation pipelines.
- Performed data preprocessing and feature engineering using NumPy & Pandas.
- Improved model accuracy and performance metrics using Scikit-learn best practices.

PROJECTS

Skin Cancer Detection – CNN / Computer Vision (Python, TensorFlow, OpenCV)

- Built a CNN pipeline to classify skin lesion types from medical images using TensorFlow and OpenCV.
- Implemented preprocessing, data augmentation, and model evaluation to improve classification accuracy.

Sentiment Analysis — UGC ACT 2026

Python, NLP, BERT, TF-IDF, Jupyter Notebook, Google Colab

- Built an end-to-end NLP pipeline to perform sentiment analysis on public opinion data related to the UGC ACT 2026 using text preprocessing, TF-IDF vectorization, and classification models.
- **Created and published an original multilingual Kaggle dataset** designed for BERT fine-tuning and sentiment classification on education policy discourse.

SKILLS

Programming Languages	Python, C
Developer Tools:	Git, GitHub, Jupyter Notebook, Google Colab, VS Code
ML / DL Frameworks:	TensorFlow, PyTorch, Scikit-learn, Keras
Core Concepts:	Machine Learning, Deep Learning, NLP, Computer Vision, Data Structures & Algorithms
Data Science:	NumPy, Pandas, Matplotlib, EDA, Feature Engineering, Data Visualization
Computer Vision:	OpenCV, CNN, Image Classification, Data Augmentation
NLP:	BERT, TF-IDF, Text Preprocessing, Sentiment Analysis, Vectorization
Soft Skills:	Problem Solving, Communication Skills, Team Collaboration, Time Management,

ACCOMPLISHMENTS

Kaggle Dataset — Public Research Contribution
Multilingual dataset for BERT fine-tuning and sentiment classification on Indian education policy (UGC ACT 2026).
